Hiring Manager
UNIPACE Corporation (Gaisano City Mall)
Cagayan de Oro City, Misamis Oriental

Dear Hiring Manager,

I am writing to express my interest in the Data Analyst position at UNIPACE Corporation. As a recent Bachelor of Science in Information Technology graduate from Caraga State University – Cabadbaran Campus, I am eager to apply my analytical, technical, and problem-solving skills to help your organization make data-driven decisions.

Throughout my academic projects and internship experience, I worked with databases, data management, system analysis, and reporting. I gained hands-on experience using SQL and MySQL for data storage, retrieval, and manipulation, as well as developing applications that required careful data validation and organization. These experiences strengthened my ability to analyze information, identify trends, and provide practical solutions.

In addition, I have knowledge of programming languages such as PHP, JavaScript, and Python, along with experience in database management and system development. During my internship, I assisted in software deployment, quality assurance testing, issue validation, and system support, which enhanced my attention to detail and ability to work with data accurately and efficiently.

I am a fast learner with strong communication skills and the ability to work independently or collaboratively within a team. As a fresh graduate, I am excited to further develop my data analytics skills while contributing to the success of UNIPACE Corporation through accurate reporting, data analysis, and continuous process improvement.

Thank you for considering my application. I would welcome the opportunity to discuss how my qualifications and enthusiasm can contribute to your team. I look forward to hearing from you.

Sincerely,

JOHN REY EXCEL B. REMENTIZO
