

July 22, 2026

Dear Hiring Manager,

Good day!

I am writing to express my interest in the Quality Assurance (QA) Tester position at your company. I am a Bachelor of Science in Information Technology graduate from Caraga State University, eager to begin my career in software quality assurance and contribute to developing reliable, high-quality applications.

During my academic projects and internship, I gained hands-on experience in software testing, identifying and documenting bugs, validating system functionality, and collaborating with developers to ensure applications met user requirements. I also have experience in web development, database management, version control using Git, and using Jira to track issues, manage tasks, and support the software testing process. These experiences have given me a solid understanding of software development and quality assurance workflows.

I am detail-oriented, analytical, and committed to continuous learning. I am excited about the opportunity to apply my technical knowledge while further developing my skills in manual testing, test case creation, defect reporting, and software quality assurance.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills and enthusiasm can contribute to your team. I look forward to hearing from you.

Sincerely,

John Rey Excel B. Rementizo
